BOHEUN.

The World is Before Thee.

BY O. L. BANKS. The wide world is before thec Go revel in its blaze, Life's sunshine may restore the The smile of happy days,

I would not in thy bosom, One bitter thought should spring Be like the treasured blossom, That wears no secret sting. Soon very strong emotion Shall droop within thy breast

The sercest storms of ocean At last are fulled to rest. And o'er the changed scene stealing A cheering beam appears; So in the work of feeling, Hope follows after teams:

Mischillon

From the Liberty (Missouri) Tribung Late from California.

LETTER FROM PETER II. BURNET We are under obligations to Col. Doniphan for the following extract rom a letter addressed to him by Pes ter H. Barnett, Esq.

SUTTER'S FORT, Upper California, February 2, 1849. Col. A. W. Donienan: I am here

at this point, having been attracted hither by the unlimited gold region of California.

Men are here nearly crazy with the riches forced suddenly into their pockts. I have had some opportunity, in the course of my life, to study human nature; but the school here is upon a before. Perhaps a few anecdotes may illustrate the state of things, and afford you some amusement. An honest close fisted shoe-maker, by the name of Spee, came from Oregon to California about a year ago. After the gold was discovered, he went into the mines and was soon making his hundred dollars a day. A quizical shrewd fellow from Philadelphia,

met him one day: "Well, Mr. Spee, how do you get

"First rate, sir. I would not be nember of Congress with his eight dollars a day, nor the President of the United States. I can make more money than they.'

"Well, Mr. Spee, I suppose you will make no more sheen." Our sheemaker thought himself insulted, and indignantly replied, "No, not L Let those make shoes who will, I make no more." He is now a merchant and deals in goods, wares, and merchan-

I was here during the Christmas holidays, and saw great numbers of young men who had never worn a cloth coat before, with at least one thousand dollars worth of finery upon them. They were almost loaded down with trinkets, I saw one fellow dressed in a splendid suit of black, over which he were a superb black cloth clock; and instead of drawing his cloak around him to shetter him from careful to let it be unfurled, like a flag catch the admiring gaze of the passers by. Another gay fellow, dressed to a contempt of Court, yet, in this cauchy as well save the cloak, was strutting up and down before the door of a large tavern. In his right hand lie held a large bell, and at short intervals he would stop and tingle his bell: as much as to say, "Look here! this is me." Another dandy went in-

the mud off his boots.

The merchant said "you will spoil goor handkerchief, hir," "Oh that's no difference, I have another. I wipe my boots with one and my nose with the other.) Some time during last autumn a young man was at work in the mines, who had his heart set upon enarriage. Whether he had courted the fair one, and she had refused his offer, or whether he had always con-sidered himself too poor to take upon himself the apport of a family, I do not know. At all events he had one day rolled aside, by means of levere and props, a large stone, under which there was a deposit of several hun-dred dollars of pure gold, in small pieces, the size of flax seed. The moment he cast bis eyes upon the chi-ning treasure, he throw himself but upon his back, in an ecstary among the rocks, clapped his lands, kicked up his heels, and exclaimed "A married man by goah!" Gol. you have been through Mexico, and chewhere,

state of affairs here. The accounts have led to this resolution, and will motion, you have seen of the gold region are concur in the expediency of the postyou have seen of the gold region are not over colored. About \$25 per day is the amount of the produce of one Yours, &c.,

PETER H. BURNETT.

LAWREN AND WITNESS .- There is noted criminal lawyer-and by this term we mean a lawyer in a criminal court-we remember, who in almost every case which comes under his charge, puts the following question to witness at the closing of his crossexamination.

"Hem! Witness-were you ever in the State Prison?"

Of course the almost invariable reply, amidst the astonishment of the embarrassed witness, is "No Sir."

"You can step down," continues the lawyer, without a syllable in explanation, and the jurymen stare at the witness as he moves away, while the business of writing sermons for the counsel pauses, and utters an expressive "ahem" -- as much as to say, "gen- thereby save themselves this labor, tlemen of the jury, you can judge of this and gain time for hunting, attending fellow's character for veracity; I say race courses, &c. A good composer nothing-I don't-I couldn't prove it can command about five English shilreadily; you may believe as much as lings per sermon, and the Rector can you like!"

Occasionally, however, the learned counsel alluded to meets with his match. Not long ago he ran foul of a "knotty customer," whom he sifted grander scale than you or I ever saw thoroughly to the end of his custom. doctrines or characters, be they infiary chapter, and to whom he put his dels or knaves, if they can but write final stereotype question, "Ahem! were you ear in the State Prison!"

> " Yes, sir!" you will please give your attention to ved on copper-plate from which he State Prison, then?"

"And how long sinco?"

"About two years ago, sir." "Two years ago, gentlemen -- you will please bear in mind-this witness, now by his vountary confession, admits he was in the State Prison."

"Yes sir." "His memory, as I have already taken pains to impressupon your minds, gentlemen, is most extronnery; and you can place as much confidence as you think proper in a man's testimony who has been an inmate of the State Prison.

"How long were you there, wit-

"About an hour, sir."
"Eh? A-hem! How long?"

"I was there, sir, about an hour, on a visit of curiosity to examine the prison, and I very well remember seeing you there at the time, and took you to be a convict! "

A A-hern-you can step down, sir! careful to let it be unfucled, like a flag said the discommed attorney, and to the passing breeze, that he might though the above uncourreous reply might almost have been construed incase, a smile pervaded the faces of versities are unfortunately served,

Judge and Jury, and the witness "re-spectfully retired."

There is a disposition to worry and hampar witnesses, altogether too common among the legal fraternity, and this is me." Another dumby well and store, and took out a fine ailk be abolished. The cause of the hook out a fine ailk and equity requires this but as these handkerchief, and commenced wiping are matters with which lawyers have are matters with which they care far less about—as a general thing—the wrong must find its first corrective of the par, we presume.

Prom the Memphis Appeal. POSTPONEMENT OF THE MEMPHIS CONsaveros. - The existence of the cholera upon the Western rivers, the panie prevailing in regard to it, and the so-licitude expressed by many distin-guished citizens throughout the Union, that the meeting of the Memphis Convention be perpened until autumn, in order that they may be emabled to be present, have engaged the carnest stmonte, and upon conture deliberation they have resulved and hereby onsounce that the time of the meeting of the Convention be postponed from Detober next.

ponement.

In the meanwhile, the efforts here hand. I was in the mines forty days, and elsewhere to carry forward the and was careful to make an accurate projected movement, and to assemble tempted in the tide of time,

By order of the Committee of Ar rangements.

Memphis, June 5, 1849.

J. T. TREZAVANT, ROBERTSON TOPP, JOHN POPE, LEWIS SHANKS, HENRY G. SMITH.

SERMON MANUFACTURE IN ENGLAND, -In England there are persons-generally deposed elergymen or superannuated schoolmasters-who make a by tithes, out of the public. Some sermon makers can earn twenty or thirsermons conforming to the standard doctrine of the Church, and they are to find clerical purchasers. Rev. Dr.

The eccentric but plous Rev. Rowsame sermon for delivery. It is as

pened even in the famous University of Cambridge at what Is commonly called the Sound church; Dr. Truster has a notable sermon on these words, monished the preacher not to give them a fourth edition of See that ye fall not out by the way," for that par-ish was all very peaceable."
The reply was that he had no other

in his pocket, so that the people must hear that or none. The reader would not dispute the probability of this anthe neighborhood of the English Uni- sands of miles.

FLYING MACHINE-The New York correspondent of the New Orleann Butletin given the following account of the last exhibition of the new flying

machine:
"In company with some hundred and lifty invited guests, I attended last evening at the Coliseum a private exhibition of Messers. Porter & Cobjohn's grial flying machine, a model, of which, sixteen feet in length, was exhibited. So far as the navigating of the bar, we presume.

Prom the Memphis Appeal.

A room two hundred feet long is concerned, the machine succeeded beyond the cavil of the most akeptical men present. Let me trouble you with a liberty to give the name of the discov-brief description. A long and narrow of at this time; we merely ask our rea-liptical balloon, made of cited silk dere, to bear in mind a year hence, that ours was the first paper in the by cords, a little boat. In the latter was a miniature steam engine, which pat in motion a centre wheel over the centre of the boat. Around this wheel ran a band which extended over two wheels, one at each side of the boat, lowing paragraph we clip from the in an elevated position; which rus-ning from the senter wheel, put in Mason (Go.) Telegraph. What will ming from the centre, wheel, put in Marco (Go.) Telegraph. Wint will at length an old stager, will known manuer of this regiment.

GREATEST INVENTION OF THE AGE. The Rochester American, alluding to Bradshaw's Telegraphic Sewing Machine, on exhibition in that city, says: keeism this is the greatest at is contrived so ingenuiously as to do the labor of eight persons in a style that will compare with that done by the carefulest hands, and yet so simple as to be worked by a child, without the slightest possible liability to get out of order. A pair of pantaloons can be made by it, the button holes and the sewing on of the buttons excepportion of it more than in another, when either end should be a trifle the highest.

It was, I assure you, a very interesting sight, to see a machine at even ing sight, to see a machine at even in the burdens of government?"

If Wobster, Corwin, Hudson, Palfrey, and manufactures of clothing who have And this is also the opinion of many manufactures of clothing who have borne testimony thereto.'

"It is truly one of the greatest labor mying machines of the age, and we hould think for good or ill, one that must work an entire revolution in the eamster's art."

A Tyrographical Race! - There has been considerable excitement for some days past in the typographical circles, in consequence of a proposi-tion to run a race between the "fast man of the Delta," and Mr. Pace, of the Bulletin. They are regarded as the swiftest compositors in the United States, Mr. Pace being equal to two hour on bourgeois type. To set up will come of to morrow. The bet is for one hundred dollars a side, the ampositors in the two offi staked the money for their respective friends. The match has created an interest among our brethren of the type, which persons of that profession only can feel and understand. As they we say "success to both sides!" and the devil take the pi of the hindmost. -N.O. Courier.

Bell's Life in London relates an anecdote of a pugilist named Shelton, who, after a day's pleasure at Hamp-stead, England, gambled away his money and clothes at pitch and tess; upon which he tossed with his comnation to see which should hang himself, the survivor to have the money And so it fell out that it was preached by different ministers in the same ted language. This discovery will depth beyond which fishes cannot live again fell upon Shelton, who actually Sound church three Sundays running. The clerk on the fourth Sunday adactual, spoken conversation, with his caught in a depth at which they must be recovered sixpence to purchase the caught in a depth at which they must be recovered sixpence to purchase the caught in a depth at which they must be recovered sixpence to purchase the halter, and commenced fulfilling his engagement. A watchman came up at the moment and cut him down; for which service the poor fellow was New Use or Buandy.-While the knocked down by Shelton, in the ex-
